The Purtell-Watts Contest.

For the first time in his career of twelve

years in the ring, Purtell intends to work

the day before a contest. He generally

leaves off two days before a bout and rests

up, but he is going to put in to-day train-

ing faithfully. Yesterday he ran eight miles

in the morning and worked two hours in

Roloff's gymnasium in the afternoon. He

will go through the same routine to-day.

Watts is also sticking to his work, both on

the road and in the gymnasium. Any morning he can be seen running out Indiana ave-

nue, bundled up in sweaters and flannels.

He has not neglected one point in his train-

ing and will be in good shape at the tap of

the gong at the Empire to-morrow night.

In addition to the main bout there will be

three preliminaries. It will be the aim of

Manager Fennessy to have the main bout

> business has increased to such an extent in many counties that it does not pay a man to look after the business of the county. They cite Madison county as one example. and say that the business there has increased to such an extent since the fee and salary law went into operation that the clerk will, after having paid his clerks, have but about \$1,000 left for his own remuneration. Marion county is cited as another example, and it is claimed that the business of the clerk's office has increased 50 per cent, since the present law went into effect. They also cite the probate judge's office of this county, and claim that the business in that office has increased more than in the clerk's office. In what county the case will be commenced the county officials decline to state, if it has been decided upon, but it will be by prearrangement, as the suit will be brought by county. They admit that the suit will be tempt in a legislative line failed yesterday by a vote of 20 ayes to 51 noes in the House. The detailed vote on the Hedgecock bill was

OLIVER T. MORTON'S BOOKS.

Public Library.

Mr. Oliver T. Morton, youngest son of the war Governor, who died in Chicago a short time ago, left a library which was considered one of the best and most carefully selected of any owned by a young man in the country. After his death it was taken charge of by Mr. Addison C. Harris, now minister to Austria, who was a warm friend and associate of the young man. Mr. Harris had the books brought to this city and they were placed in a room in the Stevenson building, where Mr. John E. Cleland, Mr. W. F. Coughlen and Mr. Laz Noble appraised them. Mr. Harris communicated with the leading second-hand book dealers of the country, in order to dispose of the books, but the best offer he could get was 10 cents a volume. There were some 1,387 books. It was a general library, with a preponderance of works on political economy and American history. At least one hun-

dred and fifty of the books were out of print and were expensive editions, with the finest of English bindings. The Indianapolis Public Library committee saw the collection and decided to purchase it all and to dispose of those books which they could not use. Many of the sociation to increase, by legislation, fees of bindings were entirely too fine for library its members having failed, the next attempt use. A number of the 150 books which were out of print the library already had in useful editions. WEEK OF SELF-DENIAL.

Funds for Good Work.

The members of the local Salvation Army 'organization will observe a week of self-denial beginning to-day. Each member denies himself some accustomed luxury such as sugar, butter, tobacco or other article, the absence of which will not necessarily impair one's health. The money that would otherwise be spent for this luxury in the coming week is turned over to one of the funds of the army, either for missionary work in the cities or in foreign lands, or for the colonizing projects of the organization. Adjutant Crawford would be glad to receive sums from outsiders who may desire est of the work in the army. A man who smokes six 10-cent cigars a day might content himself with five, and the 10 cents saved each day for a week would be a material help to the commendable work of the soldiers. This week of self-denial is practiced over the world wherever the army has posts. The organization is much interested at present in its schemes to get poor people out of the congested cities into the country, and its colonies thus far have been quite successful. The army has rescue homes and shelters for poor unfortunates, both men and women, in the larger cities of the country, and contributions will be thankfully received for these. Adjutant Crawford has recovered from the wounds he received at the hands of rowdies who tried to break up one of the army's meetings, and is again

It is a foregone conclusion now that the leading club in the Tenpin League at the end of the race will be the Columbia club. as the best that any other club can do at present is to tie it for first place. During the greater part of the season the race between the Columbias and the Calumets has been a close one, but the latter club seems to have lost its grip and it was pushed from the second place to the third by losing the first game to the Oneida club during the past week. But two weeks more remain of the season for this league, and now there is much talk of a contest between the Indianapolis League and the Tenpin League. It is proposed, and the proposition will probably be carried out, that the five highest men in each league bowl a series of games. This series would decide the much-mooted question as to the championship of the city. Another experiment which has been practically decided on is to bowl a series of games during April and May with five-men teams. If this series should prove a success the five-men team plan will probably be adopted next season, instead of a team of ten men, as has been followed this past

The prizes won in the Indianapolis League were delivered Friday evening at a "stag" held at the Lyra Casino Clubhouse, when the evening was devoted to telling how it was done and why it was not done. The prizes offered in the Tenpin Le are on exhibition in the windows of the Oneida alleys. On these alleys prizes were

offered for the bowlers having the highest averages for five games or more during February, and they were won by Web Jay, with an average of 224; M. C. Knox, with an aver-erage of 212 2-5; F. Nolting, with an aver-age of 212 3-5; M. O'Connor, with an aver-age of 212 1-5. The scores last week were as follows: Oneida Alleys-First game: Oneidas, 1,469

GOODS ON FORGED ORDERS. Another Man Arrested for Working

FELLOE

This Scheme. Another case similar to that of the "Globe Advertising Company" has been brought before the police authorities. On Feb. 27 a man presented an order on C. A. Schrader, No. 122 South Pennsylvania street, for a butt of tobacco. The order was signed Wm. H. Hedges, and, having business relations with Mr. Hedges, the goods were given the man. On the same day another order similarly signed was presented to John Rauch, wholesale tobacconist, West Washington street, and on this was given 500 cigars. It was afterwards found that Mr. Hedges, who conducts a general store at No. 1917 West Washington street, had given no such orders, and they were, therefore, forgeries. Yesterday the same man again presented another order purporting to come from Mr. fered for delay and he was detained long enough to notify the police, and then the goods were given him. He had not gone far when the bicycle police. Schroeder and Hauser, arrested him and took him to the station. There he confessed to having forged the orders, and also to having received goods from John Rauch, Schnull & Co., and that he had tried to work the same scheme on several other firms but failed.

He gave his name as Isaac Hedges. Krag-Reynolds Decision Monday. Judge Carter, of the Superior Court, yesterday announced that he would give a decision in the Krag-Reynolds litigation on Monday afternoon at 2 o'clock. The court will decide whether the mortgages executed by the Krag-Reynolds Wholesale Grocery Company are valid.

NO SLEEP FOR THREE MONTHS

One Cause of Sleeplessness That Can Be Overcome.

Mr. Wm. Handschu, of Forty-sixth street,

Cotton alley, Pittsburg, Pa., expresses himself as follows regarding the new remedy for that common and obstinate disease, piles: "I take pleasure in stating that I was so afflicted with piles that for three months I got no regular sleep; I became completely prostrated, the doctors did me no good; my brother told me of the new remedy for piles, the Pyramid Pile Cure; I purchased of my druggist three 50-cent boxes and they completely cured me. I am once more at work and but for this excellent remedy I would be on my back. I take great pleasure in writing this letter because so many people are sufferers from this trouble who like myself did not know where to look for a permanent, safe, reliable cure.

Experience with the Pyramid Pile Cure for the past three years has demonstrated to the medical profession as well as to thousands of sufferers from piles, that 't is the safest and most effectual pile cure ever offered to the public, containing no opiates or poisons of any kind, painless and convenient to handle, and being sold by druggists at 50c and \$1 per box, is within the reach of every sufferer.

Very often two or three boxes have made a complete cure of chronic cases that had There is scarcely a disease more aggravating and obstinate to cure than the various forms of piles, and it is a common practice to use ointments, salves and similar preparations containing dangerous poisons to remove the trouble. The Pyramid has super-seded all of these ineffectual remedies and no man. Thomas Barrett and Joesph Gasper, one suffering with any rectal trouble will make any mistake in giving the Pyramid a
